Appendix 3 - *Where to get information and support*

1. Why Mental Health and Wellbeing is Important

At The Mead School, we aim to promote positive mental health and wellbeing for our whole school community; pupils, staff, parents and carers, and recognise how important mental health and emotional wellbeing is to our lives in just the same way as physical health.

We recognise that children's mental health is a crucial factor in their overall wellbeing and can affect their learning and achievement. Persistent mental health problems may lead to pupils having significantly greater difficulty in learning than the majority of those of the same age.

The Special Educational Needs and Disabilities (SEND) Code of Practice identifies Social, Emotional and Mental Health as one of the four areas of Special Educational Need.

All children go through ups and downs through their school career and some face significant life events. About 10% of children aged 5 to 16 have a diagnosable mental health need and these can have an enormous impact on their quality of life, relationships and academic achievement.

The Department for Education (DfE) recognises that: "in order to help their pupils succeed; schools have a role to play in supporting them to be resilient and mentally healthy".

Schools can be a place for children to experience a nurturing and supportive environment that has the potential to develop self-esteem and give positive experiences for overcoming adversity and building resilience. For some, school will be a place of respite from difficult home lives and offer positive role models and relationships, which are critical in promoting pupils' wellbeing and can help engender a sense of belonging and community.

Our role, at The Mead, is to ensure that children are able to manage times of change and stress, be resilient, are supported to achieve success and access help when they need it. We also have a role to ensure that pupils learn about what they can do to maintain positive mental health, what affects their mental health, how they can help reduce the stigma surrounding mental health issues and where they can go if they need help and support.

Our aim is to help develop the protective factors which build resilience to mental health problems and be a school where:

- all pupils are valued;
- pupils have a sense of belonging and feel safe;
- pupils feel able to talk openly with trusted adults about their problems without feeling any stigma;
- positive mental health is promoted and valued; and
- bullying is not tolerated.

In addition to children's wellbeing, we recognise the importance of promoting staff mental health and wellbeing.

2. Purpose of the Policy

This policy sets out:

- How we promote positive mental health
- How we prevent mental health problems
- How we identify and support pupils with mental health needs
- How we train and support all staff to understand mental health issues and spot early warning signs to help prevent mental health problems getting worse
- Key information about some common mental health problems
- Where parents, staff and pupils can get advice and support

3. Definition of Mental Health and Wellbeing

We use the World Health Organisation's definition of mental health and wellbeing:

... a state of wellbeing in which every individual realises his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community.

Mental health and wellbeing are not just the absence of mental health problems. We want all children to:

- feel confident in themselves;
- be able to express a range of emotions appropriately;
- be able to make and maintain positive relationships with others;
- cope with the stresses of everyday life;
- manage times of stress and be able to deal with change; and
- learn and achieve.

4. Links to other Policies

This policy links to our policies on Safeguarding, Anti-Bullying, Behaviour, Personal, Social, Health and Economic Education (PSHEE), Relationships and Sex Education (RSE) and Special Educational Needs and Disabilities (SEND) Policy. We also have regard for KCSiE 2025 and its requirements for mental health and wellbeing.

Links with the Behaviour Policy are especially important because behaviour, whether it is disruptive, withdrawn, anxious, depressed or otherwise, may be related to an unmet mental health need. ***We consider behaviour to be a message.***

5. A Whole School Approach to Promoting Positive Mental Health

We take a whole school approach to promoting positive mental health that aims to help pupils become more resilient, be happy and successful and prevent problems before they arise. This encompasses seven aspects:

1. Creating an ethos, policies and behaviours that support mental health and resilience that everyone understands;
2. Helping pupils to develop social relationships, support each other and seek help when they need to;
3. Helping pupils to be resilient learners;
4. Teaching pupils social and emotional skills and an awareness of mental health;
5. Early identification of pupils who have mental health needs and planning support to meet their needs, including working with specialist services;
6. Effectively working with parents and carers; and
7. Supporting and training staff to develop their skills and resilience.

We also recognise the role that stigma can play in preventing understanding and awareness of mental health issues and aim to create an open and positive culture that encourages discussion and understanding of mental health issues. We aim to be a 'talking school' with an 'Open Door Policy'.

As set out in KCSIE 2025, promoting and supporting the mental health and wellbeing of pupils at The Mead begins with a preventative approach. This is achieved through fostering resilience and embedding an integrated, whole-school commitment to social and emotional wellbeing, tailored to meet the specific needs of our pupils and students.

6. Roles and Responsibilities

We believe that all staff have a responsibility to promote positive mental health, and to understand about protective and risk factors for mental health. Some children will require additional help and all staff should have the skills to look out for any early warning signs of mental health problems and ensure that pupils with mental health needs get early intervention and the support they need.

All staff understand about possible risk factors that might make some children more likely to experience problems; such as physical long-term illness, having a parent who has a mental health problem, death and loss, including loss of friendships, family breakdown and bullying. They also understand the factors that protect children from adversity, such as self-esteem, communication and problem-solving skills, a sense of worth and belonging and emotional literacy.

At The Mead School, the School's Mental Health Team (see below):

- leads on and works with other staff to coordinate whole school activities to promote positive mental health;
- provides advice and support to staff and organises training and updates;
- keeps staff up-to-date with information about what support is available;
- lead on teaching about mental health (particularly through PSHEE and RSE curriculum);
- is the first point of contact and the communicators with mental health services; and
- leads on and makes referrals to external agencies and services.

Role	Member of Staff
Designated Mental Health Lead & PSHEE Leader	Mrs Gemma Wilson
Head of Learning Strategies and Mental Health Lead	Mrs Hannah Jaques
Designated Safeguarding Lead & Deputy Head	Mrs Gemma Wilson

We recognise that many behaviours and emotional problems can be supported within the school environment, or with advice from external professionals. Some children will need more intensive support at times, and there are a range of mental health professionals and organisations that provide support to pupils with mental health needs and their families.

Support includes:

- availability of the Designated Safeguarding Team;
- assistance in managing the mental health needs of pupils with interventions: Mental Health Leads (Deputy Head and Head of Learning Strategies) have received mental health training so can assist with guiding interventions; and
- availability of the Head of Learning Strategies, to help staff understand their responsibilities to children with special educational needs and disabilities (SEND), including pupils whose mental health problems mean they need special educational provision.

7. Supporting Pupils' Positive Mental Health

We believe we have a key role in promoting pupils' positive mental health and helping to prevent mental health problems. The Mead has developed a range of strategies and approaches including;

Pupil-led Activities

- Assemblies to raise awareness of mental health.

Transition Support

- Support for vulnerable children, for example, Speech and Language (SALT) support small group work such as Lego Therapy or Social Communication groups;
- Transition meetings with parent/carers, pupils and relevant staff;
- Yearly Transition information for vulnerable children;
- Transition information available for all staff to be aware of vulnerable children's needs; and
- Key Adults supporting secondary school visits with vulnerable pupils as appropriate.

Class Activities

- Worry boxes in some classes; and
- Kindness/Compliment Boards.

Whole School

- Wellbeing Focus;
- Assembly themes; and
- Using the Power of Reading curriculum to explore themes and learn about emotions, difference, loss, bullying, change, resilience, etc.

Teaching about Mental Health and Emotional Wellbeing

Through PSHEE we teach the knowledge and social and emotional skills that will help pupils to be more resilient, understand about mental health and help reduce the stigma of mental health problems.

EYFS, Key Stage 1 and Key Stage 2 children learn to explore feelings through JIGSAW topics:

- Being Me in My World
- Celebrating Difference
- Dreams and Goals
- Healthy Me
- Relationships
- Changing Me

Our approach is to:

- provide a safe environment to enable pupils to express themselves and be listened to;
- ensure the welfare and safety of pupils as paramount;
- identify appropriate support for pupils based on their needs;
- involve parents and carers when their child needs support;
- involve pupils in the care and support they have; and
- monitor, review and evaluate the support with pupils and keep parents and carers updated.

8. Early Identification

Our identification system involves a range of processes. We aim to identify children with mental health needs as early as possible to prevent things getting worse. We do this in different ways including:

- Identifying individuals that might need support;
- Having weekly pastoral briefings with all teachers for staff to raise concerns about individual children – minutes are shared on a document accessible to all teaching and support staff to check weekly;
- Working with the School Office staff who are often the first point of contact with families seeking support;
- induction meetings and trial days for pupils / families joining after the Reception year;
- analysing behaviour, exclusions, visits to the medical room, attendance and the behaviour log. Deputy Head (Head of Pastoral) checks the behaviour log every week and SLT check it half termly;
- Using the pastoral meetings log to track children identified as having difficulties. We also use CPOMS;
- Pupil surveys at the end of the school year;
- Staff report concerns about individual pupils to the Deputy Head (Head of Pastoral), Head of Learning Strategies and Designated Safeguarding Team;
- gathering information from a previous school at transfer or transition;
- parental meetings;
- enabling pupils to raise concerns to Form Tutor, subject teachers and support staff - or anyone on the 'Who to Talk To' posters displayed around the school, including Mitzi the school dog;
- enabling parents and carers to raise concerns through the school Form Tutor or to any member of staff - we encourage healthy communication between parents and staff; and
- We source additional support for children who require it.

All staff have had training on the protective and risk factors (see Appendix 1), types of mental health needs (see Appendix 2) and signs that might mean a pupil is experiencing mental health problems. Any member of staff concerned about a pupil will take this seriously and talk to the Deputy Head (Head of Pastoral), the Head of Learning Strategies or a member of the Designated Safeguarding Team.

These signs might include:

- non-verbal behaviour;
- isolation from friends and family and becoming socially withdrawn;
- changes in activity or mood or eating/sleeping habits;
- lowering academic achievement;
- talking or joking about self-harm or suicide;
- expressing feelings of failure, uselessness or loss of hope;
- an increase in lateness or absenteeism;
- not wanting to do PE or get changed for PE;
- drug or alcohol misuse;
- physical signs of harm that are repeated or appear non-accidental;
- wearing long sleeves in hot weather; and/or
- repeated physical pain or nausea with no evident cause.

Staff are aware that mental health needs such as anxiety might appear as noncompliant, disruptive or aggressive behaviour which could include problems with attention or hyperactivity. This may be related to home problems, difficulties with learning, peer relationships or development.

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.” (KCSiE 2025, para 48) If there is a concern that a pupil is in danger of immediate harm then the School’s child protection procedures are followed. A risk assessment and plan will be made.

Verbal Disclosures by Pupils

We recognise how important it is that staff are calm, supportive and non-judgmental to pupils who verbally disclose a concern about themselves or a friend. The emotional and physical safety of pupils is paramount and staff listen rather than advise. Staff are clear to pupils that the concern will be shared with the Designated Safeguarding Team and recorded in order to provide appropriate support to the pupil.

Non-Verbal Disclosures by Pupils

Staff also recognise persistent and unusual non-verbal disclosures in behaviours in line with the NICE (National Institute for Health & Care Excellence) recommendation that behaviour may be an unmet need or message.

Confidentiality

All disclosures are recorded and held on CPOMS, including date, name of pupil and member of staff to whom they disclosed, summary of the disclosure and next steps.

Assessment, Interventions and Support

All concerns are reported to the Designated Safeguarding Team and recorded. We then implement our assessment system based on levels of need to ensure that pupils get the support they need, either from within the school or from an external specialist service. Our aim is to put in place interventions as early as possible to prevent problems escalating. We recognise that just like physical health, mental health and emotional wellbeing can vary at any given time and is fluid and changes, there are no absolutes.

Need: The level of need is based on discussions at the regular meetings with key members of staff	Evidence-based Intervention and Support: The kinds of intervention and support provided will be decided in consultation with key members of staff, parents and pupils	Monitoring
Highest need	CAMHS-assessment, 1:1 or family support or treatment, consultation with school staff and other agencies Educational Psychologist involvement External agency support that provides 1:1 support and group work If the school, professionals and/or parents conclude that a statutory education, health and care	All pupils needing targeted individualised support will have an Individual Care Plan drawn up setting out – • The needs of the pupils • How the pupil will be supported • Actions to provide that support • Any special requirements Pupils and parents/carers will be involved in the plan.

	assessment is required, we refer to the SEND Policy.	The plan and interventions are monitored, reviewed and evaluated to assess the impact e.g. through a Strengths and Difficulties Questionnaire Multi-agency meetings and regular reviews and feedback with parents/carers Early Help Referral and Children's Services if appropriate Discussion, advice and support in Child and Mental Health Services (CAMHS) core hours for key staff An electronic log is kept and there are termly safeguarding team meetings Weekly staff briefing
Some need	1:1 intervention, small group intervention, skills for life/wellbeing programmes, circle of friends	
Low need	General support Form Tutor/ Subject teachers/ TAs	

9. Working with Specialist Services to get swift access to the right Specialist Support and Treatment

In some case a pupils' mental health needs require support from a specialist service. These might include anxiety, depression, school refusal and other complex needs.

We make links with a range of specialist services and have regular contact with the services to review the support and consider next steps, as part of monitoring the pupils' provision.

School referrals to a specialist service will be made by the DSL or the Head of Learning Strategies following the assessment process and in consultation with the pupil and his/her parents and carers. Referrals will only go ahead with the consent of the parent/carer and when it is the most appropriate support for the pupil's specific needs.

Specialist Service	Referral process
Child and Adolescent Mental Health Service (CAMHS)	Accessed through school, GP or self-referral
Educational Psychologist	Accessed through the Head of Learning Strategies
Early Help Referral	Accessed through the Head of Learning Strategies & Designated Safeguarding Team

10. Involving Parents and Carers

Promoting Mental Health

We recognise the important role parents and carers have in promoting and supporting the mental health and wellbeing of their children and supporting their children with mental health needs.

To support parents and carers the School:

- has an Open-Door Policy; and
- supports parents and carers with children with mental health needs through sensitive and supportive regular meetings and signposting.

When a concern has been raised the school will:

- contact parents and carers and meet with them;
- in most cases involve parents and carers in their children's interventions, although there may be circumstances when this may not happen, such as child protection issues;
- offer information to take away and places to seek further information;
- be available for follow up calls;
- make a record of the meeting;
- agree an Action Plan;
- discuss how the parents and carers can support their child; and
- keep parents and carers up to date and fully informed of decisions about the support and interventions.

Parents and carers will always be informed if their child is at risk of danger. We make every effort to support parents and carers to access services where appropriate. Pupils are our primary concern, and in the rare event that parents and carers are not accessing services we will seek advice from the Local Authority. We also provide information for parents and carers to access support for their own mental health needs.

11. Involving Pupils

We will always seek pupils' views and feedback about our approach and whole school mental health activities through Pupil Voice, School Council, pupil surveys and class questions.

12. Supporting and Training Staff

We want all staff to be confident in their knowledge of mental health and wellbeing and to be able to promote positive mental health and wellbeing, identify mental health needs early in pupils and know what to do and where to get help (see Appendix 3).

Those staff with a specific responsibility have more specialised training and where possible access to supervision from mental health professionals. The Deputy Head (DSL) and Head of Learning Strategies have received Mental Health First Aid training and are people for staff to go to with any concerns. Early Years' staff, Year 1 staff and Year 5 staff have received specific grief training in regard to children.

Supporting and promoting the mental health and wellbeing of staff is an essential component of a healthy school and we promote opportunities to maintain a healthy work life balance and wellbeing with providing staff the opportunity to access the local facilities during their non-contact time, having social events and providing an environment where all staff have regular opportunities to talk to colleagues and management, extending our Open-Door policy to all members of our community.

Staff have access to The Wishford Schools Group Counselling and Advice Service.

13. Monitoring and Evaluation

This policy was created by the Wishford Support Office and made school specific by our Mental Health Lead (Deputy Head) and communicated to the whole school who were asked to input their thoughts and comments. Its effectiveness will be monitored by Wishford, the SLT and the Mental Health Team and reported to the Head and Governance annually. This policy will be reviewed every three years or sooner if deemed necessary.

Appendix 1

Protective and Risk Factors (adapted from Mental Health and Behaviour)

	Risk Factors	Protective Factors
In the Child	• Genetic influences • Specific development delay • Communication difficulties • Physical illness • Academic failure • Low self-esteem • SEND	• Being female (in younger children) • Secure attachment experience • Outgoing temperament as an infant • Good communication skills, sociability • Being a planner and having a belief in control • Humour • Problem solving skills and a positive attitude • Experiences of success and achievement • Faith or spirituality • Capacity to reflect
In the Family	• Overt parental conflict including domestic violence • Family breakdown (including where children are taken into care or adopted) • Inconsistent or unclear discipline • Hostile and rejecting relationships • Failure to adapt to a child's changing needs • Physical, sexual, emotional abuse or neglect • Parental psychiatric illness • Parental criminality, alcoholism or personality disorder • Death and loss – including loss of friendship	• At least one good parent-child relationship (or one supportive adult) • Affection • Clear, consistent discipline • Support for education • Supportive long-term relationship or the absence of severe discord
In the School	• Bullying • Discrimination • Attitudes to SEND • Breakdown in or lack of positive friendships • Negative peer influences	• Clear policies on behaviour and bullying • 'Open door' policy for children to raise problems • A whole-school approach to promoting good mental health

	• Peer pressure • Poor pupil / teacher relationships	• Positive classroom management • A sense of belonging • Positive peer influences
In the Community	• Socio-economic disadvantage • Homelessness • Wider supportive network • Good housing • Disaster, accidents, war or other overwhelming events • Discrimination • Other significant life events	• High standard of living • High morale school with positive policies for behaviour, attitudes and anti-bullying • Opportunities for valued social roles • Range of sport/leisure activities

Appendix 2

Specific Mental Health Needs Most Commonly Seen in School-Aged Children

For information see Annex C Main Types of Mental Health Needs:

Mental Health and Behaviour in School DfE March 2016

<https://www.gov.uk/government/publications/mental-health-and-behaviour-inschools>

Annex C includes definitions, signs and symptoms and suggested interventions for:

- Anxiety (including panic attacks, phobias and Obsessive-Compulsive Disorder OCD)
- Depression
- Eating Disorders
- Substance Misuse
- Self-Harm

The DfE guide does not include specific information on suicidal thoughts.

Suicidal Thoughts

Young people may experience thoughts and feelings about wanting to end their lives. Some young people never act on these feelings but may openly discuss and explore them, while other young people die suddenly from suicide without any apparent warning signs.
